Expert Rock Products is submitting an annual renewal update for the previous reporting period of 2011, per the Arizona Revised Statute (A.R.S.) §27-1277.

1. Status of the ACCURATE aggregate pit: Expert Rock Products has continued operations and have mined/processed very little during the year because of the economic slump. We continue as both owner and operator of the land, we plan to gear up production as the market approves. No address or other contact information has changed this year. We did reclaim 3 acres, and disturbed an additional 20 acres during the 2011 reporting period.

Expert Rock plans no amendments to the plan at this time. We have no expansion plans for the near future, and will contact ASMI at that time, if this occurs.
